NORWAY WATCHES ARMED VESSELS

MERCHANTMEN WILL BE EXAMINED BY POLICE BEFORE LEAVING PORT

(By Associated Press.) BERLIN, August 18.—Norway has taken official action regarding armed merchantmen, according to the Overseas Agency. The minister of justice today instructed the police at all ports to ascertain whether incoming merchantmen are armed, and if so to investigate before permitting the vessel to leave.

IRISH POLICIES ARE DETRIMENTAL

MANCHESTER EDITOR WARNS ENGLAND TO BEWARE OF CONSEQUENCES

(By Associated Press.) LONDON, August 18.—Various influences, particularly England's policy toward Ireland, are arousing suspicion and resentment in the United States, according to the Manchester Guardian in a long editorial. These facts cannot be ignored, the paper asserts, for active co-operation of the United States is necessary if a lasting peace is brought about by the League of Liberal Pacific Powers of the World.

TONOPAH FREEZING WITH 40-MILE WIND

The thermometer took a sudden change last night, accompanied by a freezing blast of wind from the north of high velocity, which necessitated digging out blankets and wraps from the closets of all Tonopah households. The temperature fell to 34 degrees in 12 hours and, were it not for the fact that the ground is absolutely bare of snow, one would imagine that the North Pole had suddenly shifted. However, U. S. Weather Observer Legler predicts a warm wave.

PINCH HITTING WINS HARD GAME

(By Associated Press.) NEW YORK, August 18.—New York played an uphill game yesterday and made it two straight from Cleveland by a score of 5 to 4. The Yankees tied the score in the eighth inning with two runs, which were driven in by Mullin, a pinch hitter. Morton then relieved Coveleskie and New York scored the winning run on the latter in the ninth inning on a pass to Peckinpaugh and singles by Baumann and Boone.

TELEGRAPH WITH LIGHTS.

Battleships Can Send Signals Twelve Miles in Daylight. Although searchlight signaling between battleships was a means of communication at sea long before the introduction of wireless telegraphy, it is still utilized.

The latest battleships of our navy are equipped with projectors designed especially for this purpose, while the older vessels use their regular searchlights, for which auxiliary shutters are supplied. Levers operate these latter members, flashing the lights on and off quickly so that messages may be spelled out in dots and dashes, either at day or night.

For day signaling the light shaft is directed squarely at the observer, and for enabling this a telescope is mounted with the projector. When atmospheric conditions are good the radius of communication is about twelve miles in any direction. At night this is obviously much increased, for light may be played on some prominent cloud and seen for a distance of forty or fifty miles.

When there are no clouds the searchlights may be directed skyward and their shafts of light seen at closer range. The feasibility of launching captive balloons as substitutes for cloud banks has been suggested.—Popular Mechanics.

For maximum efficiency look to the specialist. Proverbially, the Jack of all trades is master of none.

9000 revolutions per minute vacuum cleaners for rent. Lundie Bros.

JUMBO EX. TO BUY ANOTHER PAY MINE

FAMOUS LITTLE MINE PASSES ZENITH OF ITS GLORY WITH A SURPLUS OF \$200,000

Charles S. Sprague is going to issue a circular setting forth the reasons of the directors for passing the quarterly dividend yesterday. This circular, according to advices from Goldfield, will state the management decided not to declare the dividend, as such action would impair the \$200,000 reserve of the company which will be used for the purchase of another property that may be converted quickly into a dividend payer. This action is taken to forecast the acquisition of the Kanrohat group, in Jefferson canyon, on which Mr. Sprague took an option some months ago.

ENEMY TRENCHES FULL OF BODIES

BRITONS SURPRISE GERMANS AND SCORE MORE GAINS ON VERDUN FRONT

(By Associated Press.) LONDON, August 18.—German artillery showed increased activity last night on the Somme front. North-west of Bazentin le Petit the British, through a local surprise, increased their gains on the enemy's lines. The trenches were found greatly damaged and full of enemy dead.

(By Associated Press.) PETROGRAD, August 18.—The Austro-German effort to throw back the Russians in Galicia was unsuccessful and resulted in great losses. The Russians pressed forward on several sectors.

(By Associated Press.) BERLIN, August 18.—French attacks extended along the front of the Verdun region east of the Meuse were repulsed everywhere except at Fleury, where fighting is in progress. Fresh British divisions launched an attack on the German lines north of the Somme and succeeded in driving back the German first line a short distance on a narrow front southwest of Marthinich. On other sectors they were completely repulsed.

For particulars call upon R. J. HIGHLAND, Gen. Agt., Tonopah, Nev. C. E. REDMAN, Traf. Mgr., Goldfield, Nev.

READY TO BEGIN DEEPENING THE VICTOR TO DEPTH OF 1840

The machinery on the 1540 level of the Victor is now in readiness to begin deepening, but, owing to the rush of work on that level with the other openings, it is probable that the lowering of the bore will not begin until September 1. It will be pressed with three shifts to the 1840 station, where a crosscut will be thrown out to the Murray.

Meanwhile the preparations for stopping the massive Murray from the 1540 are about completed, raises having been put up and chutes installed. It will not be necessary for a long time to undertake this huge square-setting proposition, as development work both east and west supplies the mill, practically all the faces being in ore. In development work only the mill is satiated and its capacity is about to be increased ten per cent.

BRITISH SEIZE YANKEE GOODS

TRAFFIC WITH PHILIPPINES IS BLOCKED BY ENGLISH INTERFERENCE

(By Associated Press.) WASHINGTON, August 18.—With a view to making a strong protest to the British government the State department has ordered the American consul at Hong Kong to send full details of the seizure of American goods on the British steamer Kafue which were consigned to merchants in the Philippines. The possibility that this seizure, with others previously reported, foreshadows general interference with Philippine trade, caused this departmental action.

TRIPLE MURDERER CAUGHT BY OFFICERS

(By Associated Press.) LAKE CHARLES, La., August 18. Hilaire Carriere, escaped convict and murderer, who was captured today after a man hunt of several weeks, admitted, according to the district attorney, that he had killed three persons in the last year and regretted he had not killed more.

CANNOT LIVE MUCH LONGER

The condition of Convict Barron is very serious today, says the Carson Appeal of Thursday. Dr. MacLean

This will be done by placing weights above the boss heads, increasing the gravity of the stamps from 1050 to 1170 pounds, thus augmenting the output about ten per cent. The drop will remain the same. Already one battery has been taken in rotation, only one battery being silent at a time. Mr. Kirchen has plans for further enlarging the capacity of the mill, and at a relatively small cost, but he does not wish to make his plans public until he has talked them over with the directors, which will be at the next meeting.

The Afterall crosscut is being advanced by two shifts. Within a few weeks the 1540 station will be cleared to permit the northwest crosscut to follow the vein, which was picked up there in the andesite, forming the most northwesterly orebody yet developed in the district.

HURRICANE DUE ON GULF COAST

SUMMER RESIDENTS REMOVED FROM ISLAND IN DANGER OF SUBMERSION

(By Associated Press.) BROWNSVILLE, Texas, August 18. Summer residents on Padre Island, northeast of here, were removed to the mainland today by the crew of the United States coast guard station at Brazos island on warning of an approaching tropical storm from the West Indies. The barometer registered 29.39 at 10 o'clock this morning, a fall of 10 point since 7 o'clock this morning, and still falling.

(By Associated Press.) NEW ORLEANS, August 18.—Many vessels at gulf ports delayed their departure today fearing the tropical storm, which was believed centered in the southern part of the gulf.

Tabby. "Tabby" cat ought to be really "atabe," being derived from "atab," the name of a famous street in Bagdad which used to be the great market for silks. A tabby cat's coat was thought to be like the wavy markings of watered silk.

Questions and Answers. The time elapsing between a question and an answer is almost as important as the answer itself. It may be wisely long or short, but the longer it is the wiser must be the answer.

Manipulating Bones. "Pop, what's osteopathy?" "The art of manipulating bones, my son." "Then is an osteopath a minstrel and man?"—Baltimore American.

The Disappointing Movie. "I've seen it—'tain't no good." "E gets 'ung, don't 'e?" "Yus, but they don't show yer that."—London Punch.

Be a whole man to one thing at a time.—Carlyle.

RETURN TO STUDIES

Many Tonopah children left on this morning's train to attend the coming term in the Rio Vista convent, near Sacramento. Those departing were Pauline and Richard McGuire, Irene Critchfield, Albert and Edith Kettelhut and Nina Shuey.

Our tire repairs are guaranteed to outwear the tire. Lundie Bros. stated that he had had a very bad hemorrhage last night and that both of his legs are paralyzed as a result of the bullet striking one of the cords of the spinal column. It is not thought he can survive more than 24 hours.

Joseph C. Piercy "SNAPPY SODA"

The kind of soda that quenches your thirst and satisfies you in every way. We know how to serve soda water because we pay particular attention to our soda water fountain. Our fruit syrups are fresh and delicious. Our soda water is thoroughly carbonated and ice cold. Treat your friends and yourself to a delicious drink of soda at our fountain.

PERSONAL

LEO HARRINGTON and Lavoy Davis left this morning in a Ford for Round Mountain.

FREDERICK BRADSHAW, manager off he Belmont, is expected home from the Prince Rupert country Sunday morning.

MRS. DR. McLEOD and daughter, Lois, have returned from Long Beach after a vacation of a couple of months.

CHARLES WITTENBURG returned from San Francisco, where he has been for some time, on this morning's train.

MRS. M. M. WYLER and maid, Mrs. Fred Hoff and B. Garner stopped over night from Oregon, returning to Los Angeles by automobile.

MR. and MRS. J. G. DUNGAN and son, tourists, passed through Tonopah this morning from Indianapolis, Ind., on their way to Los Angeles and coast cities.

MR. and MRS. E. C. NICHOLAS and son, accompanied by F. Harrington, motored through camp early today from Jackson, Mich., to Los Angeles.

MRS. McAVOY arrived yesterday morning from Denver to visit her sister, Mrs. Joseph Dale, of Millers. The latter and her twin babies will return home to Millers tomorrow.

T. F. ARMSTRONG, Miss Clara Mann, J. E. Mann and Mrs. O. F. Mann remained in Tonopah several hours yesterday afternoon to replenish their supplies after the long trip from Tia Juana. They are going to Indianapolis, Ind.

MR. and MRS. J. WESLEY STUART, accompanied by Roy Davenport, purchasing agent for the Tonopah Extension Mining company, and his wife, departed this morning by auto for Twin Lakes, 14 miles from Bridgeport, Cal., where the party will camp for two or three weeks.

George P. Holmes, aged 60 years, died yesterday in a Reno hospital following a short illness. Holmes was one of the best known mining men in Nevada. He came to this state many years ago from his home in Nova Scotia, Can., and located at Ely. He was a member of Gilroy, Can., lodge of F. and A. M. and of Kerak temple of Mystic Shrine and Scottish Rite lodges of Reno. He is survived by a son, George W. Holmes, and a daughter, Maude M. Holmes, both of Reno.

No individual or organization devoting its energies to many different purposes can equal in each instance the results attained by the specialist who masters one particular subject and hence becomes expert. Lundie Bros.
